Chess Expansiom Documentation

Mechanics Work(Gameplay)

Game play is just as a regular chess board game with the same characters and moves with the same board and other needed asset but with cards to make some moves and carryout some beneficial events or actions. But in summary it a card chess game.

Here are some extra information to be note and should be found in the gameplay:-

Numbers of chess game players(all teams) :

6-8 Players cooperatively and simultaneously

Chess cards:-

(Chess Cards are the cards stack where everyone draws from)

Each player will draw 5 cards at the start of the game.

Chess Basic Cards include:

Move King x 5

Move Queen x 10

Move Knight x 15

Move Bishop x 15

Move Rook x 15

Move Pawn x 20

Special Cards:--

Time Travel x 1 (Take back one move and make a move)

Counter Card x 5 (Cancel any played card) (can't cancel event cards)

Turn Shift x 3 (After an opponent turn, you can play this card and it will become your turn)

Draw 2 Cards x 3 (Draw 2 chess cards)

Treasure Card x 1 (Draw 3 chess cards)

Princess Gift x 1 (throw all your cards and take 5 chess cards)

Gold Card x 3 (Take one card randomly from one of your

opponents without looking at his cards)

Card Control x 2 (Change the player number who will receive the event card)

Unfair Play x 1 (Draw three cards. Keep one, Give one to one of your opponents, discard one).

Move opponent piece x 1 (You can move any of your opponent pieces) (Except King or Queen)

Skip 1 turn x 2 (Player will skip one of his turn)

Event Cards:--

After each player turn, an event card will be selected randomly for a random player.

Draw 1 Card x 2

Draw 2 cards x 2

Discard 1 card x 2

Discard 2 cards x 2

Players Switch x 3

Cards switch x 1

Player skip 1 turn x 2
